SUBJECT: WORKFORCE SERVICES E-LEARNING TRAINING MODULES

The Workforce Services Branch (WSB) is proud to announce the launch of its new Web-based training system, WebCBU eLearning. Presented by the WSB's Capacity Building Unit (CBU), WebCBU eLearning provides an alternative to classroom training. Students can learn at their own pace by accessing training at any time and from any computer with Internet access. Each eLearning module is self-contained and can be completed in less than one hour. The modules have no prerequisites and do not have to be viewed in any particular order. Every module lists the learning objectives that will be met by the end of the session.

The WSB offers interactive eLearning modules about a variety of workforce-related topics, with more under development. Modules presently available include Trade Adjustment Assistance Overview, Wagner-Peyser Act Overview, and Workforce Investment Act Overview.

These new WebCBU eLearning modules are available now and may be accessed online at [edd.ca.gov/Jobs\\_and\\_Training/WebCBU\\_eLearning\\_Introduction.htm](http://edd.ca.gov/Jobs_and_Training/WebCBU_eLearning_Introduction.htm).

In addition to Web-based eLearning, the CBU also offers traditional classroom instruction to California's Workforce Development Community on a variety of topics. For more information see the CBU Training Catalogue at [edd.ca.gov/Jobs\\_and\\_Training/CBU\\_Training\\_Catalogue.htm](http://edd.ca.gov/Jobs_and_Training/CBU_Training_Catalogue.htm).
